Professional Summary

Informatics Engineering graduate from Telkom University with experience in full-stack web development, application maintenance, technical documentation, and programming instruction. Worked with Java, Spring Boot, Express.js, Angular, React, Next.js, and PostgreSQL through internships and projects. Interested in building practical applications and continuing to develop software engineering skills.

Education

Telkom University, Bachelor of Informatics Engineering 2024 – 2026

- **GPA:** 3.80/4.00
- **Relevant Coursework:** Artificial Intelligence, Machine Learning, Cybersecurity, Cloud and Distributed Computing, Recommender Systems, Operating Systems

Telkom University, Diploma in Application Software Engineering 2021 – 2024

- **GPA:** 3.94/4.00; graduated Cum Laude
- **Relevant Coursework:** Web and Mobile Programming, Object-Oriented Programming, Database Systems, Software Design, Computer Networks, Requirements Analysis

Experience

Coding Instructor (Part-Time Contract), PT Ruang Raya Indonesia – Indonesia Jan 2026 – Present

- Teach programming fundamentals through hybrid classes, including Scratch, MIT App Inventor, and Python for students at different school levels.
- Guide hands-on exercises and adapt explanations to students' learning needs.

Technical Writer, Directorate of Information Technology Telkom University – Bandung Oct 2024 – Mar 2025

- Prepared and maintained user guides, application change logs, requirements documentation, and UAT materials.
- Documented application workflows and collaborated with technical teams to clarify system information.

IT Developer Intern, Bank BJB Syariah – Bandung Jan 2024 – Jul 2024

- Contributed to the development and maintenance of banking applications using Express.js, PostgreSQL, and Laravel.
- Resolved bugs in reporting, data handling, exports, and application functionality; supported backend API development.

Fullstack Developer Intern, PT Tabel Data Informatika – Bandung Jul 2023 – Jan 2024

- Built and maintained application interfaces with Angular and backend features with Java and Spring Boot.
- Integrated REST APIs, wrote PostgreSQL queries, and tested endpoints using Postman.

Selected Projects

Rahmania Foundation – End-to-End Web Development Live website

- Developed the website from project setup through deployment, including database configuration and frontend–backend integration.
- **Tech Stack:** TypeScript, Next.js, React, Tailwind CSS, Supabase

Find ur Spark – Application Maintenance & Support Live website

- Maintained frontend and backend application components and fixed bugs in existing functionality.
- **Tech Stack:** TypeScript, React, React Router, Vite, Tailwind CSS, Supabase

Achievements

- **Presenter and Author**, EECSI 2026: "Omnichannel AI-Driven Guest Feedback Management: Integrating Reviews, Surveys, and Social Media into Single Dashboard Monitoring Feedback" (2026).
- **Cum Laude**, Diploma in Application Software Engineering, Telkom University (2024).
- **OPES Scholarship Recipient**, SMK Telkom Bandung (2021).

Organizations

Android Development Mentor, Chevalier Laboratory SAS – Telkom University Oct 2022 – Sep 2023

- Mentored junior members in Android application development and supported technical learning sessions.

Skills

Programming Languages: Java, JavaScript, TypeScript, Python, PHP

Frameworks and Libraries: Spring Boot, Express.js, Laravel, Angular, React, Next.js, FastAPI, Tailwind CSS

Databases: PostgreSQL, MySQL, MongoDB

Tools and Platforms: Git, GitHub, Docker, Postman, Figma, Supabase

Training & Certificates

- **Back-End Web Development** – Dicoding Indonesia (2023)
- **Junior Mobile Programmer** – Digital Talent Scholarship, Kominfo (2023)
- **JavaScript Dasar (Gold Tier)** – Skilvul (2025)
- **Azure AI Fundamentals (AI-900) Preparation Course** – ElevAIte Ltd. (2025)
- **AWS Cloud Practitioner Essentials** – Dicoding Indonesia (2023)
- **Cybersecurity Essentials** – Cisco Networking Academy (2022)
